

## Video-enhanced lesson viewing instructions

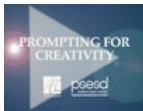

A video-enhanced lesson plan has short video clips embedded to provide just-in-time instruction of teaching strategies, concepts, skills, vocabulary, and explanations of Arts Impact’s approach to arts-infused teaching and learning.

Video clips are indicated with a blue border around a word or phrase, for example

**Enduring Understanding**

Words and phrases with a blue border appear throughout the lesson plan, not just the first page, so be sure to scroll through to locate them.

Also, a thumbnail image with a “play” arrow in the middle also indicates a video clip, for example

Prompting for Creativity
